Visionworks Update

It has been brought to our attention that a handful of Visionworks stores (but not all) have opened in our area. The one in Cranberry, The Waterfront, and Southland Plaza (the strip mall stores) have opened. The South Hills Village, Robinson, Downtown locations (the mall stores) remain closed.

We suggest that you contact the store prior to going to see what services are being provided. It is our understanding that routine exams are not being provided. However they are seeing urgent patients, refilling contacts, broken glasses, etc.

This information will be put onto our web site www.acshic.com
