

March 25, 2020

Dear Support Staff:

We know that this is a challenging and confusing time and we appreciate your ongoing patience and understanding. The District is working to determine the impact of an extended closure on our various employee groups. As there has been recent legislation and there is pending legislation that may impact the District's decisions, we are waiting to issue detailed information until later this week. In the meantime, and consistent with the Secretary of Education's order, the District may deem some employees to be "essential" and continue to require their physical presence at work. Any employees who are deemed essential and who are physically working, but live in Allegheny County should contact me to obtain a letter confirming their designation as an "essential" school district employee. You should expect more information regarding your employment and compensation status later this week.

Thanks and Be Safe!

Timothy McCullough, [SPHR](#), [SHRM-SCP](#)

Director of Human Resources
